

Website Research Commentary Pre-Proposal

Marquette students interested in writing a commentary for publication on the AHPRC website that is relevant to the mission and goals of the AHPRC are encouraged to submit a pre-proposal using this form to outline the topic and central theme. The commentary can feature recently published and emerging data especially around the COVID-19 pandemic with the student's own voice and commentary on the new information. This pre-proposal will be reviewed by the AHPRC research staff within 10 days. If approved, the final version of the write-up must be submitted within 2 weeks from the date of acceptance.

Guidelines:

- The commentary must be 350 words or less (not including references),
- Include a relevant image that can be published without copyright issues, and
- 2-3 summary bullet points that encompass the main message of the commentary.
